Ok, I go through the comments in the morning. Michelle said that she left a message with Brenda, so hopefully she'll be available tomorrow. RE: Analytical – We're planning to run full scale analytical plus TCLP analysis for the pit samples. I'll let you know as soon as I hear something from Michelle or Brenda.

Jeff:

From a general look through, the QASP looks ok to me with the comments that were made. My only comment is that I want to make sure we are doing full analytical or tell me why we should not.

Thanks

Here's a draft copy of the QASP. Michelle is still working on Section 3. Just wanted you to have a copy to see what direction we're going. I've also included a copy of the sample location maps. The sample nomenclature and map format will probably change but not the location or rationale. Also attached the Weekly Summary Info for your review. Have good weekend.
